

Commercial Interior & Exterior Palette 2012-2013

The colors offered in this palette show the general direction of color for each color family based on trend studies and research of interior and exterior products in the marketplace. As a member of the **Color Marketing Group**, we bring you the most up-to-date information so you can stay informed on color and ensure the success of your project.

Using This Color Palette: Use this color palette as a guide; consider that a shade or tint (lighter to darker tones) of these colors may be better suited for individual projects. Refer to your Diamond Vogel Studio Collection Fandeck or Architectural Portfolio to view the colors shown.

Although these colors are replicated as best as technology allows, for true color accuracy, contact your Diamond Vogel representative to view the specific color chips found in this forecast. Colors vary based on printers and monitors.

Color Selection Perfection

Inspiration

Inspiration can be found anywhere, and a good place to start is color trend information, like this palette, provided by your Diamond Vogel Sales Representative.

Verify

Visually verify the colors you find in inspiration pieces and decorative elements with a Diamond Vogel color swatch. True color verification is achieved by tinting the recommended Diamond Vogel coating for your project's surfaces and environmental conditions. Contact your Diamond Vogel Sales Representative for additional color selection support.

Confidence

Following these steps will give you the confidence in the color selection for your project. Also ask our Sales Associates about custom color matches.
